**I. PREAMBLE:**

S was very cooperative throughout the interview. His command of German was poor, because he had not spoken the language during the last several years. He was a fair judge of distances, but a poor map reader. No inconsistencies were noted in his statements. Reliability of S could not be judged.

S lived and worked on his fathers' farm in the small village GARNOL (5121N/1642E) as farmhand between Oct 57 and Mar 58. Observed an unidentified flying object as described below in Nov 57 just after darkness (1800 hrs). S was able to recall in detail all he had seen. Info was acquired through personal observation, unless otherwise stated. Dimensions, distances and numbers are approx, unless otherwise specified. Probability of info could not be judged.
